Experience

WizRobotics | UX/UI Designer/ Richmond Hill, ON

Jul 2025 – August 2025

- Led a design overhaul for a b2b website used by **200+ teachers**, rebranding major and subservices to align with company values
- Researched and prototyped screens for an AI service to give direction on features for the development team
- Created a design system to streamline work for frontend developers for a program used to make over **10,000+ STEM modules**, creating a consistent visual identity and reducing handoff time between developers

York eSports | Graphic Designer / Remote

Sep 2024 – Jul 2025

- Followed branding guidelines to deliver assets at an organized pace
- Worked with a team to create merchandise for the York eSports team

NVISION | Design Intern / Remote, Markham

Jan 2022 – Jun 2022

- Worked under the design lead to develop website layouts following brand guidelines
- Created design documents to lay out brand identity
